PROFILE

I am a results-driven full-stack web developer dedicated to crafting innovative, user-centric websites and applications. My expertise spans both front-end and back-end development, enabling me to build robust, scalable solutions tailored to diverse client needs. I excel in solving complex problems, integrating the latest technologies, and enhancing user experiences through clean, efficient code.

WORK EXPERIENCE

April 2024 - PRESENT

Codar Tech Institute

Junior Full-Stack Web Developer Intern

- Developed interactive web applications with responsive and user-friendly interfaces, improving user engagement by 25% through modern front-end technologies such as Html, Css, Javascript ,ReactJs and ReactNative.
- Collaborated with a team of front-end developers to build scalable web applications, delivering 3 fully functional projects within tight deadlines using Agile methodologies. Designed and integrated APIs, enabling seamless interaction between front-end applications and back-end systems, reducing data retrieval time by 30% with optimized API architecture.
- Managed NoSQL databases, ensuring efficient data storage and retrieval processes, which enhanced application performance and reliability for end-users.
- Integrated third-party services, such as payment gateways and authentication systems, increasing application functionality and user satisfaction through secure and efficient implementation.

EDUCATION

2017 - 2023

LANDMARK UNIVERSITY

- Bachelor of Economics

SKILLS

- Html/Css(Tailwind)
- ReactNative
- JavaScript
- React.js
- Node.js (Express)
- NoSQL (mongo DB)
- RESTFUL APIS

KEY STRENGTHS

- Proficient in modern front-end technologies (HTML5, CSS3, JavaScript, ReactJs , ReactNative) for creating responsive and dynamic user interfaces.
- Skilled in back-end development (NodeJs, Express) and database management (NoSQL, MongoDB).
- Strong understanding of version control systems (Git/GitHub) and Agile methodologies.
- Passionate about optimizing performance, implementing best coding practices, and delivering high-quality applications.
